Subject: 2000 SDDP Goals

Importance: High

We are still in the process of compiling PM USA's 2000 SDDP Goals. In order to complete this project, projected expenditure percentages with minority-owned and women-owned firms by your functional groups in 2000 are required.

Greg Huelsman is scheduled to meet with the NYO VPs shortly, and he will not be able to present the final numbers unless this information is provided ASAP.

Please let me know if there is anything that I or Greg can do to expedite this process.

Thanks,
Gary
